

## **A MESSAGE**

It is indeed a great pleasure and pride for us to present our GTN Multidisciplinary Bi-Annual Journal 2017. This journal is a double-blind, peer-reviewed publication with novel ideas. The main objective of this journal is to disseminate scientific knowledge and generate debate in an interdisciplinary context, linking the different area of sciences and in-depth analysis of problems and viable solutions for qualitative transformation in many aspects. The country's intellectual heritage contributed by earlier generation of scientists and scholars must be properly transmitted to younger generation for motivating them to come out with new scientific ideas and research findings.

Our multi-disciplinary journal has overwhelming response not only from our college faculty and budding research scholars, but also from various other colleges and Universities in the field of Arts, Humanities and Science. The editorial team with its best efforts has carefully scrutinized all the articles thoroughly with prime objective of presenting this publication with high **"Quality and Perfection"**.

We extend our sincere thanks to our Patron and Chief Executive Officer **Lion.Dr.K.Rethinam** and Our Principal for their support and encouragement. We are also grateful to our College Management for their endeavor in elevating this institution to a high standard. It is only with their blessings and support that we have released this first journal and we earnestly request all academicians and researchers to extend their continuous support for the forthcoming publications.
