22	PEER REVIEWER'S OPINION	It is a good article. Thank you for your participation. Only when the F value is significant you are permitted to go for T-test. In your article, the F value is below the table critical value. Hence revise the ANOVA value and then proceed. What aspects of social awareness (say women empowerment, child care, human rights, etc.) you are speaking about in your article. Kindly mention few lines in introduction part. Review need not be so much lengthy. Cut short few reviews and furnish relevant reviews only. Send soft copy of statistical data in XL format. Limit your reference part with only 10 references including journals, books and web source. Kindly revise and resubmit the article.
23	RECOMMENDATION FROM THE REVIEWER	I recommend that, this paper be accepted after correcting the minor errors.
